DRIVING

Experience the dynamic driving performance unique to the GENESIS GV60, powered by electric vehicle technology that offers a quiet yet exhilarating driving sensation.

Range per charge
481 km

*Based on Standard 2WD

High-capacity battery
84.0 kWh

Dual Motor
360 kW(max power)
700 Nm(max torque)

*Based on Performance AWD Boost Mode

Acceleration
4.0 sec(0-100 km/h)

*Based on Performance AWD Boost Mode

01 Hidden Drift Mode

The vehicle's power distribution, braking, and electronic limited-slip differential work together to allow the driver to drift under control, providing a unique driving experience.

02 Boost Mode

Boost mode, which uses the full power of the system to increase power, torque, and acceleration response for a set period of time, provides a differentiated driving experience in Dynamic Driving.

※ This feature is available on Performance AWD only

03 Virtual Gear Shift (VGS)

The Virtual Shift function creates the feeling of an internal combustion engine vehicle by implementing the shift feel, sound, cluster and engine speed through engine control. This provides a differentiated driving experience.

04 Preview Electronically Controlled Suspension

Based on terrain information received from the front camera and map from the navigation system, the suspension's damping force is automatically adjusted to control the motions of the vehicle. By anticipating and responding to situations that could have a significant impact on the vehicle, such as speed bumps, it provides a smooth and comfortable ride.

05 Active Sound Design (e-ASD)

This incredible technology allows you to experience the exhilaration of virtual driving in a silent electric vehicle, expressing vehicle states such as torque and speed. And for the ultimate in personalization, you can choose from two different sound sources to create a driving experience that's perfectly tailored to you.

06 Active Noise Control - Road (ANC-R)

When driving noise is transmitted to the cabin, it produces a control tone in phase opposite to the noise for improved cabin quietness.

CHARGING

With 4th generation high-density battery technology, you get an impressive range of up to 481* kilometres, plus a range of high-tech features to make your EV life a breeze.

*Based on Standard 2WD

Digital Catalog CHARGING Learn more (PC/tablet)

Digital Catalog CHARGING Learn more(mobile)

Fast charging 18 minutes
 Super-fast charging with 350 kW, charging from 10% to 80% in 18 minutes for a range of over 380 kilometers available at highway rest areas and more during long trips.
 ※ Charging time may vary based on power, charger specifications, and battery temperature.

Normal charge 7 hours 55 minutes
 On an 11 kW normal charging, 10% to 100% in 7 hours and 55 minutes, giving you 481 kilometers of reliable, comfortable driving.

01 Normal Charging & Multi-Input Charging System (400V/800V Combination)
 The 400V/800V multi-input charging system supports fast chargers, normal chargers, and super-fast chargers.

02 Smart Regenerative Braking System 3.0
 It uses traffic flow and navigation information up ahead to automatically adjust the amount of regenerative braking to maximize fuel efficiency and comfort.

03 Outdoor V2L
 With the ability to deliver 220V power for outdoor uses, you can plug the outdoor V2L gender connector into a charging outlet and use a variety of electronic devices anywhere, anytime.
 ※ The indoor and outdoor V2L function is only available when the charge level is between 20 to 100%, and the maximum power consumption may vary depending on the device used.

04 Electric vehicle-only Services
 This GENESIS-specific app supports charging station search/reservation/easy payment, charging credit and charge amount tracking, door-to-door charging service, scheduled charging and charge control, charging end notification, and charge connector lock mode. It also provides driving-related conveniences such as battery status and range checking through in-car settings.

05 Battery Conditioning Mode
 This amazing feature controls the battery temperature to make sure it's always in the best possible state for super-fast charging. It works when the fast charging station is set as a destination or stopover, and it can also be operated manually.

CONVENIENCE

The latest connectivity technologies, advanced comfort features and lifestyle trends to reflect your tastes and preferences.

01 Face Connect

This feature recognizes the driver's face via a camera on the side of the car when the door handle is touched, providing a highly personalized integration with the car door lock/unlock. It's faster and more convenient than ever before, making every journey a breeze!

02 GENESIS Digital Key 2

Lock/unlock and start your doors with your iPhone, Apple Watch, and Android-based smartphones without a smart key, and share the account with up to 15 devices.

※ Please refer to the GENESIS homepage for details of supported models.
※ Currently, only Apple Watch is available for smartwatches.

03 Digital Center Mirrors

Increase driving safety at night or in rainy weather by displaying the rear view. You can choose between an optical mirror and a rear view display feature.

04 Digital Side Mirrors

Replacing the camera and OLED monitor, digital side mirrors provide more clear rear view with a wider viewing angle. They also offer a host of advanced new conveniences, including lane change assist indicators and an enlarged reverse parking screen.

05 Indoor Fingerprint Authentication System (personalization, startup, payments, etc.)

Fingerprint authentication enables quick access to personalized profiles and starts/stops the car without a smart key. It also makes it easy to use personalization integrations such as GENESIS Car Pay and Valet Mode.

01

01 GENESIS Infotainment System

The 27-inch OLED cluster/navigation integrated display (ccIC) is a connected car integrated cockpit (CCIC) that utilizes a wide OLED display and controls the cluster display, audio-video-navigation (AVN), and HUD to provide a wide range of visual information and UX.

02 Streaming services

GENESIS streaming services offer unique, high-quality content that goes beyond entertaining.

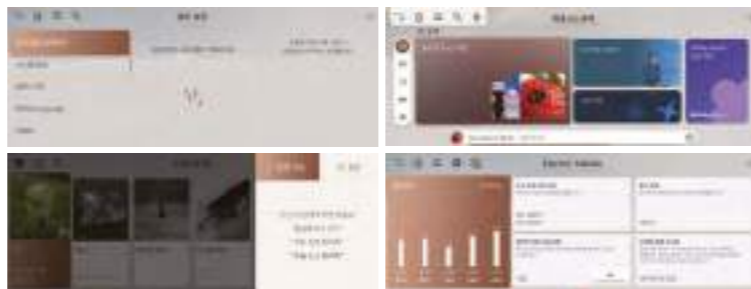

※ When subscribing to Genesis Connected Services, the Streaming Plus plan and Genesis Music, a premium music streaming service, will be provided free of charge for five years.

※ Major OTT, sports, conference, and gaming content will be continuously expanded.

※ This image is for illustrative purposes only.

03

03 Driver's Seat Ergo Motion Seat

The built-in air pockets help you find the optimal driving posture, and the stretching mode that controls the air bladder individually relieves driving fatigue. In addition, the cushion and side support are optimized in conjunction with the driving mode and speed.

04

04 Direct Grip Detection System

Determines grip by the current that flows when your hand touches the steering wheel surface. It accurately judges the driver's maneuvers to improve the safety functions of advanced driver assistance systems.

05 Driver's Seat Posture Memory System

Save your driver's seat position, steering wheel, and side mirror settings so you can easily return to your preferred position with the touch of a button. It provides a convenient, personalized driving experience, even for multiple drivers.

06

06 GENESIS Integrated Controller

The integrated controller, located on a floating console, makes it easy to operate a variety of infotainment systems, and handwriting recognition makes it easy to search for destinations and phonebooks using handwriting instead of keyboard input.

01

EXPERIENCE

The GENESIS GV60's sensory-enriching technology and amenities keep you deeply immersed in every moment of your journey.

Learn more (mobile)

01 Crystal Sphere

When the engine is turned off, the interior is decorated with a sensuous design and mood lighting, and when the engine is turned on, the old model rotates and the shift control system appears, intuitively informing the driver that it is ready to drive.

02

02 Bang & Olufsen sound system (speakers) & Dolby ATMOS

The high-resolution sound system delivers rich and clear sound, and the 10-step surround and Beosonic features create customized sound field effects. Dolby Atmos adds depth and clarity.

※ Dolby Atmos is supported in music apps (Genesis Music, Genie Music, Melon) and OTT (Netflix, Disney+) in the Entertainment menu.

03

04

03 Diffuser (Front Passenger Door Handle)

Inserted into the front passenger door's handle, the membrane-type diffuser is a subtle detail that contributes to the classy atmosphere and keeps the interior feeling fresh.

04 Ambient Moodlamp

Add emotional lighting to your cabin, with a wide range of colors to choose from to create a more upscale atmosphere.

05

05 Independently Controlled Full Auto Air Conditioner

Independent control of temperature and wind direction and a variety of air conditioning modes keep the cabin comfortable and fresh in all seasons. The after-blow system prevents mold growth and reduces odors in the air conditioner even when the engine is off.

01 Highway Driving Assist 2

It helps you drive on highways and motorways while maintaining a distance from the car in front, the speed set by the driver, and the center of the lane (including curved roads). When you get close to the car in front, it avoids danger by steering within the driving lane. Also, if you turn on the turn signal while holding the steering wheel at a certain speed or above, the car will automatically change lanes in the direction of the turn signal.

※ Advanced Driver Assistance Systems are designed to assist the driver. Please be cautious when driving.
 ※ Please note that the features may not function properly depending on the environment, driving conditions and operating conditions. For full details, please refer to the Owner's Manual.
 ※ Please note that the availability of certain features may be dependent on the selected options.

02

03

02 Rear Collision Avoidance Assist

While driving above a certain speed, it recognizes the vehicle behind you and alerts you with warning lights and an alarm there is a risk of collision. It also helps you brake if you're moving forward and the risk of a collision increases.

03 Rear Cross-Traffic Collision Prevention Assist

An alarm sounds when there is a risk of collision with a vehicle approaching from the rear when changing lanes or while backing out of a parking space. If the risk persists, the brakes are activated automatically.

04

04 Forward Collision-Avoidance Assist (Vehicle/Pedestrian/Bicyclist/Cross Traffic/Cross Traffic)

It watches your surroundings and automatically helps you brake when the risk of collision with cars, motorcycles, pedestrians, and cyclists ahead persists. If the risk of a collision with a vehicle approaching from the left or right while turning left at an intersection, or a vehicle approaching from the left or right while driving, or a vehicle approaching from the front while driving, increases, it will automatically apply the brakes. When changing lanes, Automated Evasive Steering automatically helps you avoid a collision with an oncoming vehicle or a vehicle on your side. It also helps you avoid a collision with a vehicle or pedestrian on the edge of the lane in front of you.

05

06

05 Remote Smart Parking Assist 2 (with Parking Lot Line Recognition and Diagonal Parking)

Assists with parking and exiting via remote forward/reverse with your smart or digital key from outside the vehicle. Recognizes parking lot lines and assists with perpendicular, parallel, and diagonal reverse parking.

06 GPS Navigation-based Smart Cruise Control

While driving on expressways and highways, the system adjusts to ensure travel at safe speeds according to road conditions. It automatically reduces the vehicle's speed prior to safe zones, curves, and before approaching entry-exit ramps. After passing these zones, the system accelerates back to the original speed afterwards.

membership

Whether it's charging, maintenance, or care, we've got the car care and lifestyle benefits you need for your EV life. You can choose from one of the services below.

EV CarCare

Charging Credits

- Only 500,000 credits available at public chargers

EV Combination Package

- 200,000 in charging credits and coverage for vehicle damage for up to 1 year from the date of delivery (or 20,000 km of mileage, whichever comes first)

EV Fleet Management Combination Package

- 200,000 in charging credits and premium car care services such as car washes, coatings, etc.

Sonax FullCare Fleet Management

- Offer glossy coatings or polish car washes by Sonax, a premium German car care brand.

Travel

- Hotel annual membership offer (choose 1 of 7 partners below)

Grand Walkerhill/Vista Walkerhill [Seoul], Grand InterContinental Seoul Parnas/Parnas Hotel Jeju, Seoul Dragon City Hotel, Paradise City [Incheon], Paradise Hotel Busan, Lotte Hotel Busan, Haevichi Hotels & Resorts Dining

Lifestyle

- Costco Executive Membership
- Flower (Honestflower)
- Coffee (Momo's Coffee)
- Wine Subscription (Purple Dog)

Welcome gift

You can choose one of the 2 options below.

[Option A] Leather & Soft Knee Blanket

[Option B] Tumbler Full Carbon Middle Umbrella

※ Details will be provided on the GENESIS homepage and in the Membership Guidebook.

※ This service is subject to change or discontinuation due to the circumstances of the company and its affiliates.

Government-declared fuel economy and ratings

Model Name	Fuel Type	Energy(kWh)	Tires	Curb weight (kg)	Range per charge (km)	Fuel Economy(km/kWh)		
						City	Highways	Compound
Standard 2WD	Electricity	84	19"	2,020	481	5.6	4.6	5.1
Standard AWD	Electricity	84	19"	2,130	437	5.0	4.2	4.6
Standard AWD	Electricity	84	20"	2,140	415	4.7	4.1	4.4
Performance AWD	Electricity	84	21"	2,190	382	4.3	3.6	4.0

※ These specification figures are based on Ministry of Industry certification figures.

※ Government-declared fuel economy is based on recently enhanced fuel economy measurement methods.

※ Due to the nature of electric vehicles with high-capacity batteries, the weight of these vehicles increases compared to internal combustion engine models, so they cannot be parked in mechanical parking lots considering the domestic mechanical parking lot standards..

Genesis is committed to the concept of a sustainable future.
